Igniting insights for the public good through pioneering data science

We are Flamelit. Our data science consulting supercharges and differentiates your services, products, and organization. We want a world where people, communities, and organizations make wise decisions through insightful information.

Differentiators

:: Blue-ocean & Greenfield data science system design and development
:: Healthcare, IOT, and Gov't AI/ML & Analytics Ops
:: Hutch Studio incubator, 2024 cohort

Core Competencies

:: Data Science & Analytics
:: ML Engineering / ML Ops
:: AI System Design
:: Data Engineering

Past Performance

:: DHS/USCIS - SubK for AI & data engineering on BIMS, GS-35F-404DA
  ▽ NASS/CPMS system development
  ▽ COVID-19 recovery capacity planning
  ▽ UK Visa data & application development
:: PCCI: Non-profit Dallas-based healthcare data science R&D
  ▽ Geospatial analytics, reporting, and statistical modeling
  ▽ Epidemiological forecasting (Community Protection / Herd Immunity)
  ▽ Community Vulnerability Compass: designed and prototyped socioeconomic data source used for public health/healthcare
  ▽ COVID-19 Vulnerability Index
  ▽ Pediatric Asthma Surveillance System, ML-driven system assessing community pediatric asthma risk and resourcing needs
:: DevIQ: digital strategy and product design & engineering firm
  ▽ Energy Intensity Data Science System Design and Development
  ▽ Network Topology to localize utility system event sources
